LEHIGH COUNTY DRUG AND ALCOHOL ABUSE SERVICES and ADVISORY BOARD

MISSION STATEMENT

Lehigh County Drug & Alcohol Abuse Services and Advisory Board are responsible to ensure the provision of quality alcohol, tobacco and other drug abuse Prevention, Intervention, Treatment, Case Management, HIV/AIDS, TB and Housing services for Lehigh County residents. We seek to decrease addiction and its effects throughout the County and will assist in the development and management of federal, state and county resources available to accomplish these goals.

PHILOSOPHY STATEMENT

The Board recognizes the disease concept of chemical dependency and is committed to ensuring that quality services are provided to Lehigh County residents. This is accomplished by contracting with organizations that offer direct client services. Alcohol, tobacco and other drug abuse services must include various Prevention, Intervention, Treatment, Case Management, HIV/AIDS, TB and Housing services to support countwide needs. This comprehensive system enables individuals to obtain the earliest possible care to address their special needs.

The Board assists in the determination of priorities that ensure the most efficient and yet effective use of funds. Prevention efforts must extend throughout the entire County to schools, prison, housing communities, organizations and businesses. Family programs must be developed to encompass all those affected by addiction and enhance the recovery of the addicted person as well as his/her family members.

Drug and Alcohol Case Management, Resource Coordination and Intensive Case Management services were provided to all clients during FY 10/11, which included assessments (initial and periodic), referral, service planning, and assistance in accessing HIV/AIDS, TB, Housing and other appropriate ancillary services. Programs for the criminal justice population are available in order to decrease the number of individuals involved in criminal activities as a result of substance abuse or addiction.

County funds will be used after all other funding sources have been exhausted for clients who are unable to pay for all or part of their treatment. A treatment liability will be determined on all adult clients and will be used to determine the client's financial responsibility in accordance to the Department of Health, Bureau of Drug and Alcohol Programs Liability Determination Policy. Prevention services will be made available to the community at no cost; however, donations are encouraged and accepted to offset the total expense to the County.

In addition, the Office of Drug and Alcohol Abuse Services and the Drug and Alcohol Advisory Board support the Lehigh County Department of Human Services' Purpose and Philosophy and the Department of Health, Bureau of Drug and Alcohol Programs requirements.

ADMINISTRATION

Lehigh County Drug and Alcohol Abuse Services is designated by the Pennsylvania Department of Health as a Single County Authority (SCA) responsible to ensure the provision of alcohol, tobacco and other drug abuse through Prevention, Intervention, Treatment, Case Management, HIV/AIDS, TB and Housing services to Lehigh County residents. The Office implements federal, state and local policies governing the fiscal and general administration of publicly funded alcohol, tobacco and other drug abuse services. Drug and Alcohol Abuse Services is one of for programs within the Office of Mental Health, Intellectual Disabilities, Early Intervention and Drug and Alcohol. The Drug and Alcohol Administrator is responsible for the day-to-day operations of the Drug and Alcohol Department.

All services are provided through contracts with community agencies. In FY 10/11, Drug and Alcohol Abuse Services contracted with 52 facilities (12 within the County and 40 out of County). Services are for the community and targeted special populations such as pregnant women, women with children, adolescents, minorities, criminal justice offenders, mentally ill substance abusers (co-occurring), those who are high risk for

HIV/AIDS and/or TB and the homeless who are seeking drug and alcohol treatment services.

Drug and Alcohol Abuse Services has an Advisory Board of seven (7) members who are approved by the County Commissioners and appointed by the County Executive. Members are representative of various positions in the community. They provide recommendations regarding the planning, implementation and management of alcohol and other drug abuse services. Advisory Board meetings are open to the public and are held on the second Tuesday of month at least seven times a year at 8:00 AM. They are held at the Lehigh County Government Center, 17 South Seventh Street, Allentown, PA. The Board met eight times this past year. The exact dates of the meeting were posted on the Lehigh County website as well as advertised in The Morning Call newspaper.

SCA CASE MANAGEMENT SYSTEM

Lehigh County SCA is strictly an Administrative unit and, therefore, does not provide any direct services to clients. Individuals seeking assistance for a substance abuse problem have a variety of options available. The Lehigh Valley Drug and Alcohol Intake Unit and the four licensed outpatient service providers can screen and assess individuals seeking help and assist them to access the appropriate level of care. Day and evening hours are available at all of the agencies. Emergency services after hours or on weekends are provided by the Lehigh County Crisis Intervention Program, who screen individuals, arrange for immediate medical intervention, if necessary with next day follow-up.

Assessments are available to anyone who does not have any insurance or other financial means. Occasionally, youth and adolescents want to receive treatment, but do not want parental/caretaker involvement. In these situations, the SCA will fund the assessment and treatment. Any adult who is assessed and needs inpatient treatment is case managed by the Lehigh Valley Drug and Alcohol Intake Unit.

Once individuals are assessed, they are referred to the Lehigh County subcontracted agency that can provide the level of care recommended by the Pennsylvania Client Placement Criteria (PCPC) for adults or Adolescent American Society of Addiction Medicine (ASAM) for adolescents. If Inpatient treatment is recommended and transportation is not available from a relative or friend, the treatment agency is contacted to pick up the individual and transport him/her to the treatment facility. If Intensive Outpatient or Outpatient treatment is recommended or requested, the assessor will assist the individual in setting up the first available appointment at the IOP or Outpatient facility.

When the individual is admitted to an Inpatient treatment facility, the facility contacts the Lehigh Valley Drug and Alcohol Intake Unit, who completes a fiscal form and forwards it to the SCA for review and authorization. The approved authorization is sent to the treatment facility. If the client needs additional treatment days, as per the extended stay PCPC, the treatment facility must contact the Intake Unit and send the PCPC to them for

review. An additional fiscal form is then forwarded to the SCA for review, approval and authorization. The treatment facilities must contact the Intake Unit when the client leaves treatment, including against facility advice and administrative discharge, prior to the expected discharge date.

There are only three limits on treatment at this time: an individual who leaves Inpatient treatment against facility advice, therapeutically discharged or does not follow through with the recommended level of care cannot be admitted into Inpatient treatment for 90 days. After that time, he/she will only be offered Intensive Outpatient or Outpatient treatment until 90 days have passed. Individuals are advised in writing of this limitation at the time they are referred for Inpatient treatment. There is currently no county residency requirement for assessments or treatment; however; if someone has not established residency in Lehigh County, every attempt will be made to contact his/her original county of residence for funding.

Intensive Case Management services, provided by the Lehigh Valley Drug and Alcohol Intake Unit, are available for those who meet the eligibility requirements. All eligible individuals completing Inpatient treatment are offered case management services, which include assistance to find housing, start or continue their education, ensure appropriate medical care, find employment, etc. They are followed for a minimum of six months or until they have enough stable support services to continue their recovery on their own. The case manager works very closely with the County's Mental Health, Aging/Adult Services and Children and Youth Systems. They also collaborate with several community to provide the most information to and connections for the clients.

The SCA assists individuals through their recovery process with the ultimate goal of sobriety. We have provided the financial assistance to support programs that can aid people in this process. There are numerous recovering individuals within Lehigh County that have found sobriety through various support systems. How each individual defines that support system is what makes the recovery process unique. Lehigh County currently provides funding for transitional housing to individuals new in the recovery process. As we embark on another year, the SCA will continue to strive and seek ways to assist Lehigh County residents in the recovery process.

HIGHLIGHTS

ADMINISTRATIVE SERVICES (Highlights)

♦ Co-sponsored, with the PA Department of Health and Treatment Trends, Inc, Lehigh County SCA offered twenty trainings this fiscal year. These trainings were requested by local treatment providers, which allowed their staff to meet specific BDAP training requirements in those areas. This is the most training offered in Lehigh County at any point in time.

- ◆ Lehigh County SCA continues collaboration with Lehigh County Prison, Men's Community Correctional Center and Lehigh County Adult Probation to provide intervention services within the Men's Community Correctional Work Release Center. A total of 45 men participated in group this fiscal and the average age of men attending was 33.
- ◆ Lehigh County SCA has once again increased collaboration with Lehigh County Children and Youth. Lehigh County SCA continues weekly participating in the Lehigh County Children and Youth Post-Placement meetings. In these meetings, we assist parents in accessing drug and alcohol services to help children return to their homes and live successful lives with their biological parent(s). Approximately 500 children were discussed during the 2010/2011 Fiscal Year.
- ♦ Lehigh County SCA participates in the monthly Lehigh County Children's Roundtable meetings led by the honorable Judge Johnson, as well as active monthly participation in the Education Subcommittee.
- ◆ Lehigh County SCA participates with all Lehigh County Human Services in a Systems of Care Grant to better improve service coordination and collaboration to the youth of Lehigh County.
- ◆ Lehigh County SCA is a participant of the Lehigh County Integrated Family Services Program (IFSP) and a member of the Executive Committee. This fiscal year, through the Lehigh County SCA, IFSP provided \$79,133 of addition funding for services to children and families throughout Lehigh County.
- ♦ Lehigh County SCA co-chairs the Lehigh County's Child Death Review Team with the Allentown Health Bureau to monitor and provide assistance to children and their families who have passed away as a direct result of their parents drug and/or alcohol use or of their own accord. As a result of this meeting, the Lehigh County SCA has become a partner with the Lehigh County Coroner to begin to look at local suicides as result of possible drug and/or alcohol use.
- ♦ Lehigh County SCA continues to be an active member of the DUI Task Force. We have participated in monthly meetings and have been involved in numerous press conferences to bring awareness and education to our community.
- ◆ Lehigh County SCA continues to be an active member of Team MISA [Mental Illness and Substance Abuse] providing assistance to inmates in need of accessing treatment. From this meeting, 14 individual were referred to Drug and Alcohol Assessments.

PREVENTION SERVICES (Highlights)

- ◆ Center for Humanistic Change continues to be a Commonwealth Approved Student Assistance (SAP) Trainer. During this fiscal year, their Commonwealth Approved Trainer successfully trained/certified over 100 school faculty and administrators.
- ♦ This fiscal year, The Center for Humanistic Change's classroom programs focused on a variety of prevention and education based trainings. Programs such as Energy Drinks, Current Trends and healthy alternatives were continued. A newly created training for bus driver's was initiated that provided insight into the specific district's SAP referral process, ATOD signs and symptoms and cultural diversity.
- ♦ The Center for Humanistic Change continued to provide prison/probation programs that include addiction relapse, life skills and parenting for Lehigh County inmates who are preparing to re-enter society.
- ◆ Project SUCCESS (Schools Using Coordinated Community Efforts to Strengthen Students) continues to be facilitated by the Center for Humanistic Change. Ten (10) Lehigh County schools participated in this mentoring program that reached over 250 students.
- ♦ The Strengthening Families Program for parent and Youth Ages 10-14 works with parents and children to address parenting life skills through role play, discussions, learning games and family projects. Seventy one (71) parents and 99 youth participated in this program. This program was coordinated and facilitated by Valley Youth House.
- ♦ The Youth Education Program (YEP) for the Prevention of Destructive Decisions, administrated through Valley Youth House, delivered combined services to over 5,000 youth.
- ♦ The S.A.D.D. Chapters Advisory Board continues to be administered through Valley Youth House and assists students in initiating drug prevention programs in their own school. The SCA secured funding through an Integrated Family Services Grant that provided each Lehigh County High School's S.A.D.D. Chapter \$3500 to plan a pre or post prom activity, organized by the S.A.D.D. Club to provide awareness and education over prom season that decisions matters. This message was received by almost 7000 high school students.

INTERVENTION SERVICES (Highlights)

♦ The Lehigh County SCA continued with the integrated Student Assistance Program (SAP) Services through contracts with The Center for Humanistic Change and Valley Youth House. This intervention service screen adolescents for both mental health and substance abuse problems upon referral by the school-based SAP teams. SAP

Liaisons attended 1083 core team meetings and providing 900 hours of SAP Team support. There are 26 Lehigh County middle and high school SAP teams and 728 students were referred for SAP Assessments. Adolescent Central Intake Unit and Pyramid Healthcare provided the SAP Assessment services.

- ◆ The SCA met with representatives of each of the ten (10) Lehigh County School Districts to collaborate concerning prevention services that were meaningful to each District. One of many of the results from these meetings was the decision to forego a Student Assistance Program Consortium. In lieu of the SAP Consortium, the SCA provided up to ten (10) hours of individualized trainings or programs per District (in addition to the scheduled prevention programming). This allowed each District to identify pertinent topics for their SAP Team members and facility staff. The result was not only meaningful topic discussion but also increased the level of partnership between the District and SCA.
- ◆ Both the Allentown Health Bureau and Latinos for Healthy Communities provided the following:
 - 734 Lehigh County residents with HIV/AIDS education;
 - 674 Lehigh County residents with HIV/AIDS prevention/pretest counseling;
 - 429 Antibody test were provided to Lehigh County residents; and,
 - 351 Lehigh County residents received post-test counseling.

TREATMENT SERVICES (Highlights)

- We again received a renewal of the Intermediate Punishment Grant from the Pennsylvania Commission on Crime and Delinquency (PCCD) - effective July 1, 2010 through June 30, 2011. Individuals admitted to the Drug & Alcohol Intermediate Punishment Program enter into and then pursue successful completion of a 22-month program of restrictive drug and alcohol treatment in lieu of prison. This program is a collaborative effort that involves Lehigh County Adult Probation and Treatment Trends, Inc.
- ♦ We continued to work with the Director of Human Services to open a 7 bed non-hospital detox and 24 co-occurring non-hospital rehabilitation program in Lehigh County. The building will be located in Salisbury Township on land currently owed by Lehigh County. The building will be a new free standing site. We have received all township approvals. At this time, the current schedule shows the program to open in Fall of 2013.
- ◆ Treatment Trends, Inc Confront admitted 279 people for drug and alcohol treatment this fiscal year.
- ♦ Treatment Trends, Inc. Confront provided 16,778.75 hours of drug and alcohol treatment this fiscal year. The weekly schedule included 19 different groups.

- ♦ 264 adult individuals discharged from Treatment Trends, Inc Confront regardless of their status shows the following:
 - 69% refrained from drug use while in treatment;
 - 87% had not been arrested;
 - 92% had refrained from involving themselves in violence; and
 - 91% lived in safe and stable housing
- ♦ The Halfway Home of the Lehigh Valley Alumni Association participated with current residents in activities through the year such as bowling, and quarterly breakfasts. These activities provided their residents the opportunity to "network with them and strengthen their recovery supports.
- ♦ The Halfway Home of the Lehigh Valley serviced a total of 196 total clients of this fiscal year. Of those 196 clients, 44 were residents of Lehigh County.
- ♦ The Halfway Home of the Lehigh Valley remained active in teaching future counselors and giving them the opportunity to develop knowledge about chemical dependency and treatment. This fiscal year, a Bachelor's level student and a Masters level student –one from Kutztown University and one form Cedar Crest College-completed their internships at the Halfway Home of the Lehigh Valley.
- ◆ The Halfway Home of Lehigh Valley observed its 38th year of continuous operation at its Annual Picnic held at the Rose Garden in Allentown. Approximately 200 alumni and families joined staff and residents to enjoy the event.
- ♦ Keenan House client participated in fundraisers such as car washes, and helped with security work at Dorney Park. These events allowed clients to raise money toward their own activities and helped serve the community. This past holiday season, Keenan House provided pies, diners and funds to less fortunate families in the Lehigh Valley, as well as donating over 100 toys to the Toys for Tots Program.
- ♦ The Fish and Game commission also benefitted from Keenan House resident volunteerism as residents worked at the Fish Hatchery to stock the Lehigh River in the spring. Volunteer hours at the hatchery topped at 510 hours this year as they assisted officials in stocking local rivers and help maintain the fish hatchery infrastructure.
- ◆ Local service organization such as Second Harvest Food Bank, Habitat for Humanity, United Conferences of Churches, The Veteran's Administration and others have benefited for the volunteer work of the clients at Keenan House. Over 4316 hours of service were logged in this fiscal year. In addition, each client seeking to find work in the Allentown or surrounding areas during re-entry must complete a reinvestment project. Each project is between 8-25 hours of service to places such as the Allentown Soup Kitchen, local businesses or service organizations.

- ♦ Keenan House residents worked at helping to maintain the West End Cemetery. They worked to keep up the grounds as well as to honor the many veterans that are buried there by decorating their graves for Memorial and Veterans Day celebrations.
- ♦ All Keenan House residents participated in either The Great PA Clean Up or local neighborhood clean up efforts to ensure that awareness of how to support community and increase awareness of the importance of "giving back".
- ♦ 2011 was first year for CRC Health Group/White Deer Run to work with a new CEOmany changes are being built into the existing organization to meet the needs of many more people in need of our services.
- ♦ White Deer Run Allentown built in local programming such as Problem Gambling to meet the needs of the community.
- ♦ CRC Health Group/White Deer Run changed their Utilization ment. Locally it is now incorporated into a corporate-wide system in effort to create better access to treatment as well as continuation of needed treatment for all individual served.
- ◆ CRC Health Group/White Deer Run has provided employee opportunities for development enhancement in order to become a preferred company for employees of the best skilled in behavioral health.
- ♦ White Deer Run Allentown received CARF exemplary notice for work with Impact Project's and Juvenile Probation's School Justice Panels.
- ♦ White Deer Run Allentown participated in the 2011 Heroes for the American Red Cross Campaign.

CASE MANAGEMENT SERVICES (Highlights)

- ♦ Provided case management services to **455** individuals
- Provided resource coordination to **36** individuals.
- ◆ Provided intensive case management to **202** individuals.

RECOVERY SUPPORT SERVICES

- ♦ The SCA continues to collaborate with the Team MISA to assist incarcerated individuals in accessing treatment.
- ♦ Various local treatment providers have active Alumni Groups that assist individuals throughout the recovery process.
- ♦ The SCA has begun speaking with our local Managed Care Organization, Magellan, as to ways we can work together to develop services to meet the need of our residents who are in the early stages of recovery.
